Wireless internet is accessible in many locations at the Centre, so you are welcome to bring a laptop with you, if you would like. Two desktop computers that are shared among the staff are available for your use during your stay, as well as a printer. Cell phone reception on the Island is quite spotty, especially at the Centre. A landline phone, shared among the staff, will be available to you here with unlimited long distance for calls to Canada and the US.

Please do not bring candles or incense to the Centre, as the fire risk on the island can be high and the use of open flames here is restricted to ceremonies and cooking. We also ask that you please leave strongly scented products, animal companions, and valuables at home.
